Cake Lace

Add edible lace decorations to your cakes!

Cake Lace is easy to use. Simply mix as directed, spread onto the silicone mat and place in the oven at 175°F. Bake for 12 to 15 minutes, cool for five minutes and the lace is ready to use.

The beauty of Cake Lace is that, once made, it will stay moist and pliable for many months, allowing you to create masterpieces that take time. Cake Lace is the perfect edible lace decoration!

WEDDING
ELEGANCE

WEDDING ELEGANCE *Program*

Our Wedding Elegance program is sophisticated, simple and trend-forward.

Featured this year are 6 NEW cake designs inspired by fashion patterns such as chevron, ruffles and lavish textures of lace and damask. A vast influence of exotic flowers and jewels bring these cakes to life!

THERE ARE TWO EFFECTIVE ORDERING OPTIONS:

CAKE COMPONENT SET

Cake Component Sets provide all the supply items needed to make the wedding cake (e.g. foil cake boards, dowel rods).

Order the Component Set, then to complete your cake, just order all the needed accessories in the colors and styles you desire!

À LA CARTE

Order exactly what your bride requests!

Wedding accessories and bakery supply items are packaged appropriately so you are not left with excess inventory.

Most
wedding cake
designs can be made

Airbrush Repair Program

Because the airbrush represents an important part of cake designs, DecoPac has a program to help keep your airbrush in good working order.

1. Our Customer Service Representatives are trained in airbrush repair, dial 1-800-DECOPAC for assistance. They will coach cake decorators through cleaning and minor repairs. Most airbrush malfunctions are caused by improperly cleaned equipment. We believe 80% of the difficulties can be solved through this in-house service.
2. For more stubborn problems, send us the broken airbrush and we will repair and return your airbrush to you within 2 to 3 weeks. We also offer reconditioned DecoPac and Badger airbrushes in exchange for the same make and model. Badger models will be repaired or exchanged for a flat fee of \$25. DecoPac models will be repaired or exchanged for a flat fee of \$30. All other models will be repaired for a flat fee of \$30.

Please note:

There is no charge for calling the help line; this complimentary service is available to all DecoPac customers. Failure to properly pack the compressor being returned to Badger for repair will void the warranty.

Badger Compressor Repair Program

If it is determined by DecoPac Customer Service that the compressor needs repair, you will be directed to the Badger Air Brush Company at 1-800-247-2787 for further assistance. Ask for the Compressor Department when placing the call to Badger and identify yourself as a DecoPac customer.

Please note: The manufacturer's one-year warranty is limited to defective parts or workmanship only. Manufacturer's warranty may be void if general maintenance is not performed.

1. If it is determined that the compressor needs to be returned to Badger for repair, Badger will issue a UPS Call Tag for the return of the compressor to Badger as long as it is within the warranty period of one year from date of purchase. Please provide a copy of the invoice. If you can not provide the invoice, contact DecoPac Customer Service and they can provide it for you.
2. If the compressor is not under warranty, you may still send it back to Badger for inspection to determine the issues with the compressor. Before any work would be done on the compressor, you would be notified of the cost to complete the repair. Because your compressor is no longer under warranty, you are responsible for all shipping and repair costs.
3. Badger will require 2 business days to repair any compressor unit that is sent back. Additionally, the transit time should be taken into consideration; both to and from will vary based upon your location. The average transit time will be 2 to 4 days each way.

The DecoPac Advantage

The DecoPac Advantage

We are proud to offer you the most unique, popular, and high-quality products in the industry.

Innovative and distinctive, our premium, market-tested products will boost your bakery's sales and profitability!

Safety & Quality Guarantee

Because customer satisfaction is our utmost priority, DecoPac takes many quality and safety measures, including:

- We unconditionally guarantee the quality of every product we sell. If any product fails to perform as expected due to a quality problem, simply contact Customer Service to arrange a replacement or full refund.
- DecoPac cake decorations, edible and nonedible, meet all applicable regulatory requirements, including those promulgated by the FDA and the CPSC.
- Products are tested and certified by accredited third-party laboratories in accordance with the Consumer Product Safety Improvement Act (CPSIA). DecoPac's standard for lead content is even more strict than the federal regulations! Every toy is tested to the ASTM F963 Toy Safety Standard, including the critical Small Objects requirement (aka Choke Hazard).
- Samples from every incoming shipment are double checked by our in-house Quality Control. We use advanced XRF (x-ray fluorescence) equipment to check for heavy metals (including lead) and we use the exact same equipment and procedures as specified in the federal Toy Safety Standards to check for physical/mechanical hazards.
- As needed, DecoSets® include safety stickers to inform consumers of important safety warnings. It is your legal responsibility to use them! Look for the (warning triangle) symbol in our catalog and on The Magic Of Cakes® pages.

Reduce

DecoPac prints all publications on recycled paper. We also feature water-efficient fixtures in our restrooms to help conserve water and use environmentally friendly cleaning supplies in our office. DecoPac also uses biodegradable air pillows as packaging materials in all of our shipments.

Reuse

DecoPac uses rechargeable batteries in most warehouse transportation and distribution equipment. We also donate many of our surplus cake decorations and supplies to local charities to be used as gifts for those less fortunate. Used office equipment is also donated or sold to other organizations to be reused instead of being placed in the waste stream. We are also distributing more sales materials in electronic form in order to reduce the use of paper and the environmental transportation costs associated with mailing the materials.

Recycle

DecoPac has been and continues to be a leader in recycling. Most waste generated by our business is kept out of the waste stream. We recycle nearly 100% of all corrugate and packaging supply materials. Other items that are recycled at DecoPac include: electronic scrap, batteries, cell phones, printer cartridges, printer paper, decorating products, bottles and cans.

Employee Involvement

100% of our employees participate in corporate recycling programs and are educated on waste reduction efforts. DecoPac also offers many environmentally friendly services to our employees such as electronic waste and battery recycling, "Plant a Tree" programs and "Adopt a Park" sponsorship.

Sustainability

Our belief that everything we do has some impact on the environment, influences the decisions we make. As part of our commitment to promoting social responsibility and minimizing waste, we manage our company based upon the above environmentally friendly principles.

La Ventaja DecoPac

Estamos orgullosos en ofrecerle los productos más únicos, populares y de alta calidad en la industria. ¡Innovadores y distintivos, nuestros productos de alta calidad, probados en el mercado, le prometen fomentar ventas y rentabilidad en su pastelería!

Garantía de Seguridad y Calidad

La satisfacción de cliente es de suma prioridad para nosotros, DecoPac toma muchas medidas para asegurar la calidad y seguridad, que incluye:

- Nosotros garantizamos incondicionalmente la calidad de cada producto que vendemos. Si algún producto falla a rendir como se esperado debido a un problema de calidad, simplemente contactar los Servicios al Cliente para arreglar un reemplazo o un reembolso completo.
- Las decoraciones de pasteles de DecoPac, comestible y no comestible, cumplen con todos los requisitos de regularidad aplicable, incluidas las promulgadas por la FDA y la CPSC.
- Los productos son probados y certificados por un tercero laboratorio acreditado de acuerdo con la Ley de Mejoría de Seguridad de Productos al Consumidor (CPSIA). ¡El nivel de DecoPac para contenido de plomo es aun más estricto que las regulaciones federales! Cada juguete es probado de acuerdo al Nivel de Seguridad de Juguetes ASTM F963, incluyendo el requisito crítico de Objetos Pequeños (alias Riesgo de Asfixia).
- Las muestras de cada envío de entrada son verificados dos veces por nuestro Control de Calidad interno. Utilizamos avanzado equipo de XRF (fluorescente de radiografía) para comprobar si hay metales pesados (incluyendo plomo) y utilizamos el mismo equipo exacto y procedimientos como se especifica en el Nivel de Seguridad de Juguetes para comprobar si hay los riesgos físicos/mecánicos.
- Según sea necesario, DecoSets® incluyen una pegatina de seguridad para informar los consumidores de advertencias de seguridades importantes. ¡Es su responsabilidad legal para usarlas! Busque (warning triangle) el símbolo en nuestro catálogo y en las páginas del libro The Magic of Cakes®.

Reducir

DecoPac imprime todas sus publicaciones con papel reciclado. Nosotros también usamos muebles sanitarios que ahorran agua en los servicios higiénicos y usamos artículos de limpieza en la oficina que no dañan al medio ambiente. DecoPac también usa almohadillas de aire biodegradables para empacar los materiales en todos sus envíos.

Reutilizar

DecoPac usa baterías recargables en la mayoría de sus equipos de transporte y distribución en el almacén. Nosotros también donamos muchos de nuestros artículos excedentes de decoraciones de pasteles y artículos a caridades locales para que sean usados como regalos para los menos afortunados. Material de oficina usado también es donado o vendido a otras organizaciones para que sean re-usados en vez de que sean llevados al contenedor de basura como desperdicio. También, estamos distribuyendo más materiales de ventas vía electrónica para reducir el uso de papel y el costo ecológico de transporte asociados al enviar materiales por correo.

Reciclaje

DecoPac ha sido y continuara siendo el líder en reciclaje. Casi todo el residuo generado por nuestra compañía. Nosotros reciclamos casi el 100% de todo material de cartón y materiales de empaque. Otros artículos que son reciclados por DecoPac incluyen: partes de artefactos electrónicos, baterías, teléfonos celulares, cartuchos de impresoras, papel de impresoras, productos para decorar, botellas y latas.

Participación de Empleados

El 100% de nuestros empleados participan en programas de reciclaje a nivel corporativo y se les enseña a reducir residuos. DecoPac también ofrece muchos servicios ecológicos a sus empleados como el reciclaje de artefactos eléctricos y baterías, programas como “Plante un Árbol”, y el patrocinio de “Adopte un Parque”.
